## Five To Be Honoured At Convocation Today

Five honorary degrees will be awarded at the Spring Convocation exercises today. All five men honoured will receive degrees of Doctor of Laws. This is the highest honour that McGill can bestow.

To be honoured are the Premier of the Province of Quebec, the Honourable Jean Lesage; distinguished hospital administrator Dr. Basil C. MacLean; noted conservationist A. H. Richardson; the High Commissioner for the United Kingdom, the Right Honourable Viscount Amory; and the President of Mount Allison University, W. T. R. Flemington. Mr. Lesage will also be Convocation Speaker.

### J. LESAGE

Premier Lesage graduated from the Faculty of Law at Laval University in 1934. He was elected Liberal Member of Parliament in the 1945 general election at the age of 33. In 1951 he was appointed Parliament Assistant to the Minister of External Affairs, and in that and the following year represented Canada at the Thirteenth and Fourteenth Sessions of the Economic and Social Council and at the Sixth General Meeting of the United Nations, and chaired the International Conference of the Technical Assistance Board.

In 1953 Mr. Lesage was appointed in succession Parliamentary Assistant to the Minister of Finance, Minister of Resources and Development, and Minister of Northern Affairs and Natural Resources, a post which he retained until the Liberal defeat in 1957. The following year he left Ottawa to lead the provincial Liberal Party, and in 1960 became Premier of Quebec at the age of 49.

### B.C. MacLEAN

Dr. MacLean graduated from McGill in 1927 and received the M.P.H. from John Hopkins University in 1942. After serving as super-intendent of Montreal General Hospital and later of New Orleans Touro Infirmary, he became Director of the Spring Memorial Hospital and Professor of

Hospital Administration at the University of Rochester in 1935.

In 1954 Dr. MacLean left these posts to serve a three-year term as Commissioner of Hospitals in New York City. He has also served as President of the American Hospital Association, of the American College of Hospital Administrators and of the Blue Cross Association. In 1953 he received the Award of Merit, American Hospital Association.

### A.H. RICHARDSON

Mr. Richardson received his B.A. in Biology from McMaster University in 1915 and the M.A. in 1916, and in 1920 received the S.M. (Silviculture) from Harvard University. That same year he became Chief Forester in charge of reforestation at the Ontario Department of Lands and Forests.

In 1942 Mr. Richardson was appointed Chairman of the Inter-Department Committee on the Ganaraska Watershed and Chief Conservation Engineer for the Ontario Department of Planning and Development. In 1957 he was Chairman of the Metro-Toronto Conservation Authority. On his retirement in 1961 he was presented the gold medal by the Professional Institute of Canada.

### D.H. AMORY

Lord Amory was educated at Eton and at Christ Church, Oxford, and was an officer in the Territorial Army before serving in the Second World War. He was elected Conservative Member of Parliament in the 1945 general election, and since the Conservatives were returned to power in 1951 he has successively held the ministerial posts of Pensions, State, Board of Trade, Agriculture and Fisheries, and Agriculture, Fisheries and Food.

In January 1958 Lord Amory was appointed Chancellor of the Exchequer in the MacMillan cabinet. On his resignation from this post in July 1960 he was created a Viscount, and in 1961 he was appointed British High Commissioner to Canada.

### W.F.R. FLEMINGTON

Rev. Flemington received his B.A. from Mount Allison University in 1922, his M.A. in 1923, and his B.Paed. from the University of Toronto in 1930. He was Headmaster of Mount Allison Boys' School from 1930 to 1945, when he was made President of Mount Allison University. He was President of the National Conference of Canadian Universities in 1958-59.

## Convocation To Honor Five Retired Teachers

Five veteran staff members will become emeritus professors at today's Convocation in honor of their 180 aggregate years of teaching and research service.

The professors to be honoured are: Robert E. Jamieson, formerly Dean of Engineering; George A. Wallace, former Chairman of Electrical Engineering; Dr. Ernest M. DuPorte, Chairman of the Department of Entomology and Plant Pathology; Dr. Cecil P. Martin, Chairman of the Department of Anatomy; and Dr. Walter A. DuLong, formerly Professor of Agricultural Chemistry at Macdonald College.

### R.E. JAMIESON

Professor Jamieson joined the staff in 1919 and served on it for 43 years. In 1932, he was named the William Scott Professor of Civil Engineering and served as dean of the faculty from 1952 to 1957, when he retired.

After his retirement, Professor Jamieson helped set up a large-

1,447 degrees will be conferred today as the annual spring Convocation takes place at 10 am this morning. Plans have been made to accommodate nearly 10,000 spectators.

Lower Campus will be the sight of the single Convocation to be held at 10 am. All the degrees and diplomas will be awarded at this time.

Parents, friends and close relatives of students in the Class of '62 are cordially invited to attend the ceremony. Each member of the graduating class is permitted to invite three guests.

### DEGREES

The candidates for degrees and diplomas will report to the Arts Building steps in full academic regalia at 9:15 am. From there they will proceed in couples to the three blocks of seats facing the platform.

R.E. Powell, Chancellor of the university, will "cap" all the graduates. The Deans of each faculty will announce the names of the respective students and any prizes and medals that they may have won.

The actual prizes and diplomas will be given out at the Registrar's office after the ceremony between noon and 5 pm. Graduating stu-

dents are required to sign receipts for their diplomas and therefore should call at the Registrar's office in person.

### TREE PLANTING

Following the Convocation, a tree planting ceremony will take place with Robert Carswell, SEC Chairman, and Ann Wilson, Women's Union President, officiating as representatives of the graduates.

The Principal and Mrs. James have invited the graduating classes to a Garden Party on the campus from 4:30 pm to 6:30 pm. The graduate's parents and the husbands or wives of graduating students are welcome.

Five distinguished gentlemen will receive honorary degrees at the Convocation ceremony. The Honourable Jean Lesage, Prime Minister of Quebec is to be the recipient of one of these. He will also deliver the Convention address.

The other recipients will be: Dr. Basil C. Maclean, M.D., C.M., distinguished hospital administrator; A.H. Richardson, Canadian conservationist; The Rt. Hon. Viscount Amory, High Commissioner for the United Kingdom; and W.T.R. Flemington, President of Mount Allison University.

### OPENING

At 12:30 pm, following the morning convocation, Premier Lesage will officially open the university's new center for modern languages. The centre, called Peterson Hall, has been in operation for a year.

The convocation ceremony is not the only event of graduation that is scheduled for this week. Last Sunday, in Redpath Hall, the Rev. Clifford Knowles, University Chaplain, conducted a Baccalaureate Service, with the Rev. S. D. Frost, Dean of the Faculty of Divinity, delivering the sermon.

The Royal Canadian Air Force Band under the direction of Flying Officer W. Boyce held its annual open air concert last Monday on the Lower Campus.

In the evening the graduates will exchange their gowns for tuxedos to partake of dinner and dancing at the Sheraton Mount Royal Hotel from 8:30 pm to 3 am. The gala affair will be preceded by a banquet and the dancing will start at 10 pm to the music of Stan Bankley's band and Eddie Alexander and his band.

### Acknowledgements

The Daily extends its appreciation to The Montreal Star, The Gazette and Coronet Studios for the photographs of the graduates.

Fifty-first Year of Publication  
The Oldest College Daily in the Commonwealth  
The McGill Daily is published five times a week by the Students' Society of McGill University at 690 Sherbrooke Street West, Telephone AV. 8-2244. Authorized as second class mail by the Post Office Department, Ottawa, and for payment of postage in cash. Postage paid at Montreal. Editorial opinions expressed are those of the Managing Board and not the official opinion of the Students' Executive Council.

**DAVID H. FLAHERTY**  
Lt.-Gov's. Gold Medal  
History

A common room in one of the three new residences: Each residence has a large common room completely glassed in on two sides.

A view of part of the annular dining room in Bishop's Hall, which can accommodate 1,000 persons and can be subdivided into four sections.

## Three New Residences In Readiness To

"There was an old woman who lived in a shoe; she had so many children that she had to build a new residence." That dear old woman was McGill and she built three new residences.

One year to the week after work commenced on the large project at the north end of University Street, the buildings were officially opened by the Duke of Edinburgh. In a brief ceremony on May 15, the Duke unveiled a plaque on Bishop Mountain Hall, the annular dining hall in the complex. The plaque commemorates the fact that "Bishop Mountain Hall and the group of residences for men students comprising McConnell Hall, Molson Hall

and Gardner Hall were officially opened by His Royal Highness Prince Philip Duke of Edinburgh on the occasion of the second Commonwealth Study Conference."

Private benefactors contributed \$2,110,000 toward the project while the Canada Council provided \$1,700,000 and the rest, \$700,000, was made available by the Provincial Government. The architects were Durnford, Bolton, Chadwick and Ellwood and the general contractors, Foundation Company of Canada.

### 500 Per cent Increase

Up to the completion of the new residences, University residence facilities comprised Douglas Hall, opened in 1937, and Wilson

Hall, formerly the United Theological College, which together accommodate a total of 225 students. This represented only eight per cent of the male student population of over 2,800 students from outside Montreal. The new residences with accommodation for 685 men raises the total to 835. (Wilson Hall becomes an academic building in September). The University will now be able to house 30 per cent of its out-of-town male students.

A six member committee under the chairmanship of Dr. Stanford Reid, Warden of Douglas Hall, was set up by the Board of Governors in October 1957 to study the residence problem. The other

members of the committee were: Principal F. Cyril James, Mr. G. A. Grimson, University Comptroller, Mr. R. G. Defries, Director of Construction Projects, Mr. A. T. Galt Durnford and Mr. Malcolm Bett, representing the architects. Their findings and decisions resulted in these new buildings. Dr. Stanford Reid was recently appointed Director of Men's Residences at McGill.

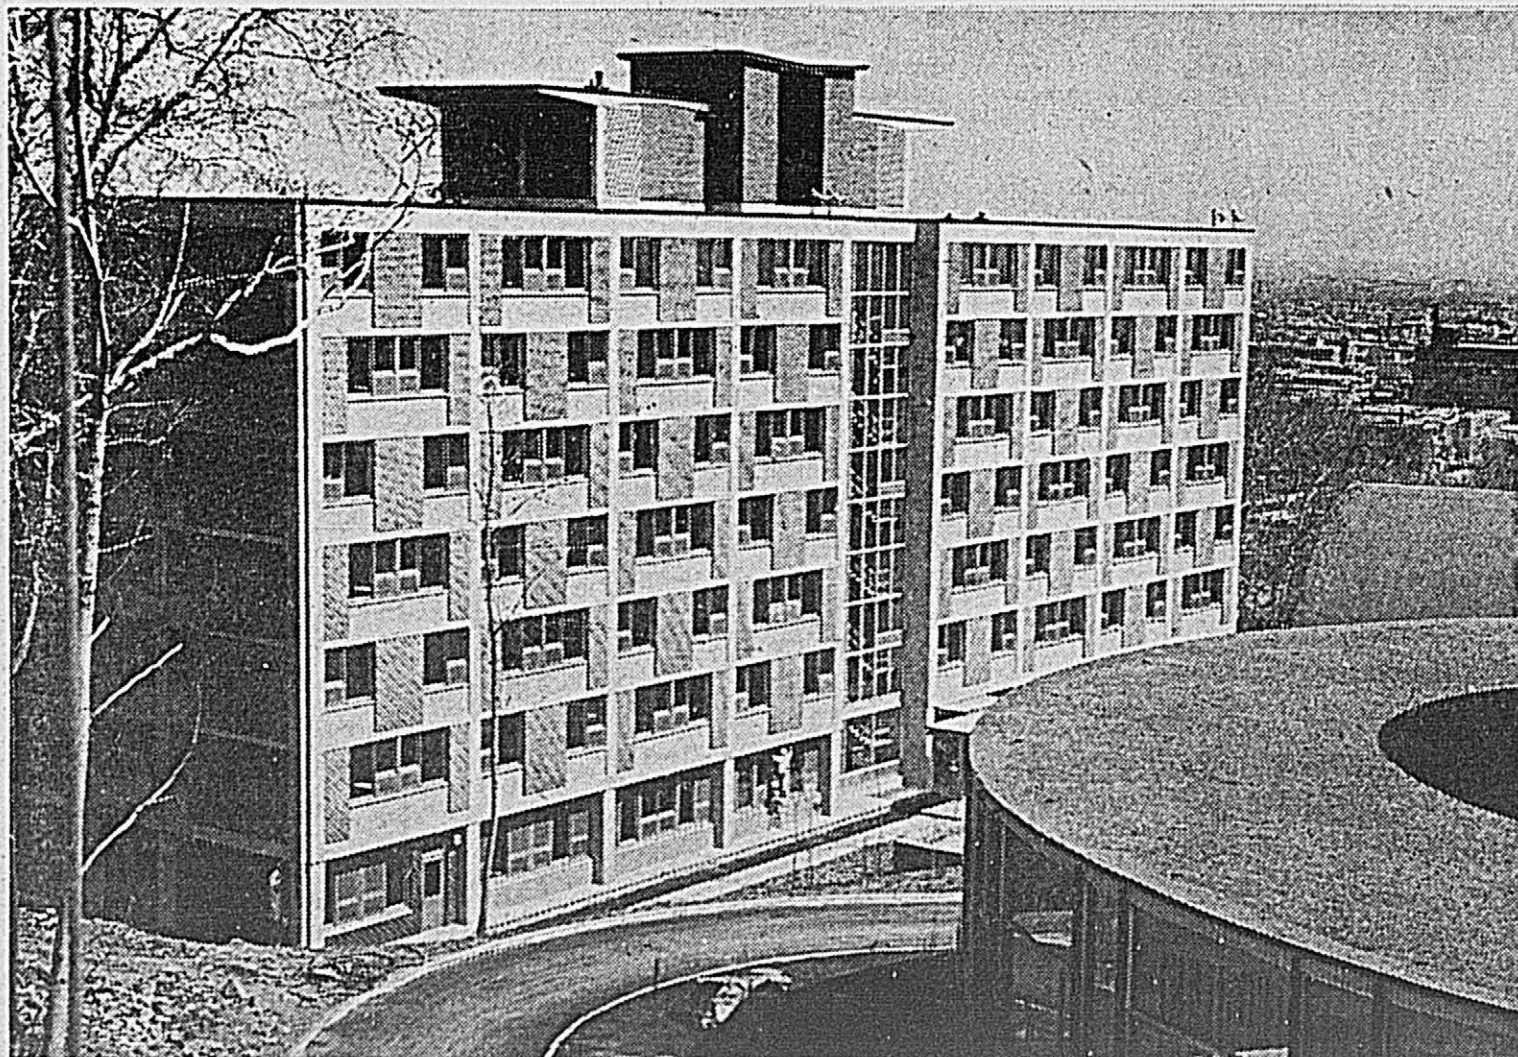

### Good Vantage Point

The new residence complex occupies a unique location at the head of University Street to the north-west of Douglas Hall, on the south-east slope of Mount Royal. The contours of the land have permitted the residences to

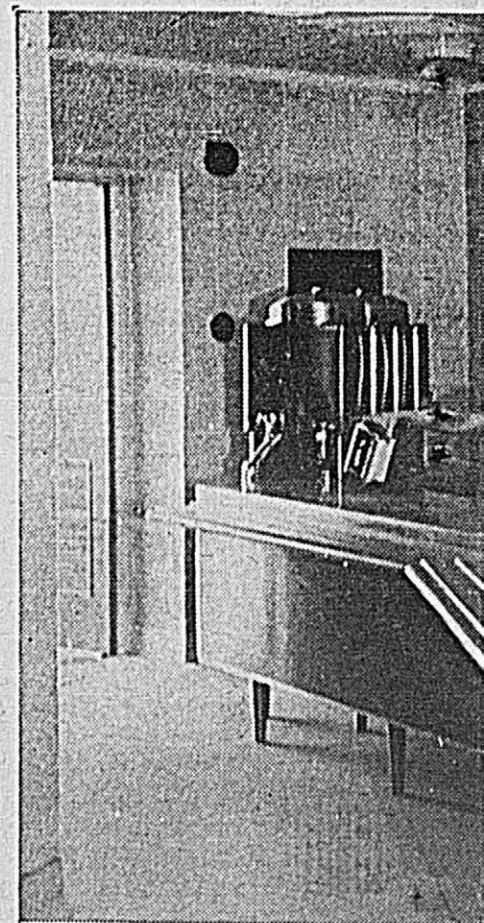

be built of different levels, thus affording a splendid view of most of the City and the St. Lawrence River Valley.

McConnell Hall, the east building, was named in honour of John W. McConnell, Governor Emeritus of the University, and one of McGill's great benefactors. His gift of \$1,307,270 enabled the University to undertake immediate construction of a third residence after the Board of Governors had announced plans to build two residences and a dining hall.

Molson Hall is a tribute to two members of a distinguished family, the Honorable Hartland de M. Molson, O.B.E., a Governor of the University since 1948, a member of the Senate of Canada since 1955, and his brother Thomas Henry Pentland Molson, E.D., in recognition of their substantial contributions.

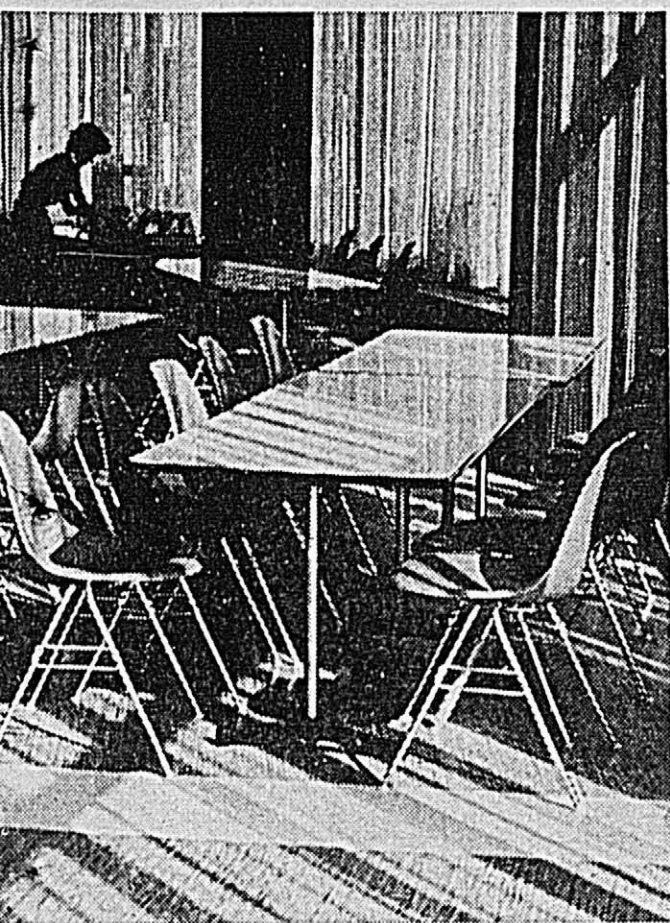

McConnell Hall: This residence accommodates 235 students and is the most easterly of the three residences. Each of the other two buildings are similar in appearance but have only 225 rooms.

A food line in the dining hall: Food is dispensed through these dispensers which receive the food from the kitchen.

Top Mountain Hall: The dining room can accommodate sections with folding doors.

# House 685

Gardner Hall bears the name of Mr. B. C. Gardner, leading Canadian banker and financier, Governor Emeritus of McGill and its Chancellor from 1952 to 1957.

Bishop Mountain Hall commemorates the first Principal of McGill, the Reverend George Jehosaphat Mountain, who later became Anglican Bishop of Quebec.

## Buildings Well Equipped

The three residences are identical in appearance and facilities, of reinforced concrete construction, with exterior brick and tile veneer finish. Each residence contains eight floors, including a sun-deck on the roof.

Eight additional rooms on the ground floor of McConnell Hall afford this building a total student accommodation of 235. The other two each house 225.

The ground floor in each contains storage rooms, fully-equipped

automatic laundry for student use, television room, quarters for Building Superintendent and the Matron. The main entrance to each residence facing into the quadrangle, is on the first floor.

Opening out from the spacious lobby are a common room, with good comfortable chairs, a games room which includes a snack bar, billiards table and ping-pong table, and the administrative offices. A library-reading room, meeting room and a room lined with food dispensing machines are also located on the first floors.

## Sections Of 18

The remaining six floors are given over to the rooms for student residents. Each floor contains a total of 36 rooms in two sections, with each student in his own room. All bedrooms are located on the outside walls and the service rooms—bathrooms, linen closets, etc.—are located in the

The exterior of Bishop Mountain Hall: The circular dining room commemorates the Reverend Jehosaphat Mountain, McGill's first Principal.

center of the floor. No more than seven rooms open into one corridor. Each section of 18 rooms has its own small kitchenette with refrigerator and stove for the preparation of coffee and light snacks.

Each student is provided with a bed, chair, built-in wardrobe, bookcase, dresser and mirror, reading lamp, curtains, floor mat and ample power outlets. Several inventions of Dr. Stanford Reid have been employed in the new buildings. Two of which are the chair in each room and the convertible head-board on the bed. The chair is useful as a desk chair and as well a lounging chair. The head-board on the bed comes forward at a tilt providing a comfortable reclining chair for studying.

## Promoting Solidarity

Situated in the center of the quadrangle formed by the new residences, the Dining Hall is a unique circular glass enclosed building. The lower floor contains washrooms, lobby staff offices and cloakrooms. A huge and ultra-modern kitchen is situated here also and is linked to the two serving areas in the Dining Hall above by the elevators.

Photos by  
MIKE GOLDSTEIN

Story by  
BILL HERSH

Access to the Dining Hall is gained by two sets of staircases leading to two cafeteria style service counters, which are located in the middle of the floor. Folding walls can divide the annular dining area into four segments, one for each residence and one for staff. This division of the dining area is being instituted to promote Hall solidarity.

The residence fee, including room and board, in the new buildings will be \$750 for the average Artsman with a stay of 210 days. Depending on the length of their term, fees vary for different faculties.

Dr. Stanford Reid explained that these new buildings were essential. "Last year we had 500 applications and only 83 vacancies and we expect this year to accommodate

all applicants. We have been concentrating mainly on the younger group, on Senate recommendation, for these are the students who in most cases will be at McGill longer."

In reply to a question concerning racial discrimination, Dr. Reid said, "We try to mix colour groups as much as possible at Douglas Hall where there are some double rooms we do not put two boys of the same racial group together and we've never had complaints from the boys. Eighteen different racial groups are represented at Douglas Hall and we don't even

contemplate any discrimination problems here.

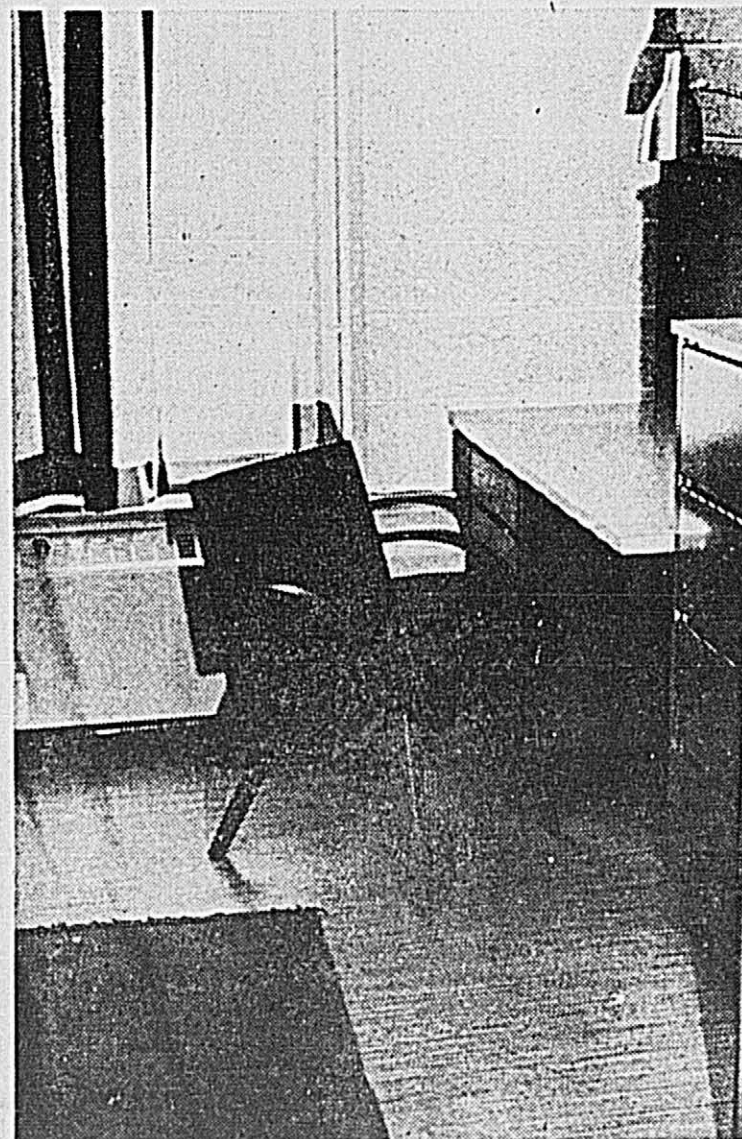

## Wardens Appointed

Each residence will have a Warden, a member of the Faculty, living on the second floor, two Assistant Wardens on the fourth and sixth floors respectively, and three tutors living on the third, fifth and seventh floors.

Two Wardens were appointed by the University this week. Dr. G.E. Sleight, former Warden of Wilson Hall, will take up new quarters in Molson Hall while Mr. Peet Silvester will be Warden of McConnell Hall.

Is selected here and taken into the dining room. There are two of d from the massive kitchen on the lower floor.

Desk in a typical bedroom: Each bedroom contains a desk with lamp, large dresser, spacious cupboard, comfortable chair and picture window.

## Expansion . . .

(Continued from page 2)

are presently provided in the old Union, and assorted service rooms.

The Student Center as well as the Arts Building project is under the direction of the architects Giffle, Desbarats, Dimakopoulos, Lebensold and Sise.

The landscape of the campus will be somewhat altered during the expansion. A large terrace will replace the road and grass area from the crossroads to the Arts Building. This stone terrace will feature various types of trees, flowers and possibly a few fountains. Access to the Arts Building by vehicle will only be possible by an approach from the sides and a drive along the new terrace. As well, the road to the Roddick Gates will be relandscaped with sidewalks recessed a few feet from the road.

### FUTURE EXPANSION OUTLINED

After completion of the present plans, the University will embark on another series of building projects. The Redpath Library will be extended to Sherbrooke and the old Biology Building will be rehabilitated to accommodate some of the administrative departments. The Eaton Electronics Laboratory and the Radiation Laboratories

will have extra floors added, and the Law Faculty will receive an extension to its Chancellor Day Hall. A new Physics Building may be constructed beside the proposed Chemistry Building. These projects are contemplated but no definite announcements have been made.

In his brief talk Dr. James noted that one of the new Biology Buildings will bear the name of Mr. Walter Stewart in appreciation of his great contribution made to the University over a long period. Mr. Stewart is now an honorary member of the Board of Governors of the University.

The funds for most of the projects in the first stage are already available. Of the total, one third — about \$10,000,000 — comes from those who subscribed to the McGill Fund Campaign of 1956, an equal amount from the accumulated federal grants or from the Canada Council and the remaining third has been made available by the Provincial Government under Bill 64.

The entire development plan has evolved from the efforts of the Senate Development Committee under the chairmanship of Professor Carl Winkler and with the technical assistance of Professor H. Spence-Sales.

## SPORTS BEAT

by BOB COHEN

As a student, the university athlete has attained a most unenviable stereotype. He has been characterized as a mass of muscle and bone with anything above the neck being there just by incident.

The evolution of this caricature doesn't seem to be too difficult to trace. The athletic scholarship and the yearly "bidding" for a young man's athletic services often makes the university, as an academic institution dedicated to the advancement of learning and higher education, appear farcical.

All it takes is one simple generalization by the skeptics and anybody with any athletic association, however remote, is doomed in academic appraisal. We are certainly in no way suggesting that the characterization is totally unfounded but we are inferring that its application is highly disproportionate.

### The Flip Side

The publication of this year's graduation results bears us out. To be sure, there have been the intercollegiate sports stars who have not distinguished themselves in their graduating year but there have also been those who have tipped the balance in the other direction. This latter group is one we would like to say something about.

Anybody who was there will not easily forget the night of February 15, 1962. This was the night the McGill student body honored Leo Konyk for his outstanding contribution to the University's intercollegiate athletic program. It was also the night that the Redmen Hockey squad copped the Winter Carnival's Birks Trophy by turning aside the University of Montreal's Carabins in a roof raising 6-4 decision.

In this contest, Dick Giuliani, a right winger with speed to burn, scored the hat trick and Dave Flaherty, a tricky centreman, potted the fifth and what proved to be the winning goal for McGill.

At exam time these two were still going strong. Giuliani graduated with Distinction on the General Course and Flaherty led his class in Honours History.

At a glance, it seems that Flaherty's results were the best of the intercollegiate athletes. In addition to graduating with first class honours and winning the Lieutenant-Governor's Gold Medal, Flaherty was awarded a Woodrow Wilson fellowship. He will be continuing his studies in American Revolutionary History (started here under the supervision of Dr. John I. Cooper) at Columbia University in New York. His Ph.D. program will last three years and will be directed by the noted historian Dr. Robert Morris.

Giuliani has yet to decide whether he wants to teach, do actuarial work or do computer programming.

### It Doesn't Stop There

In addition to these two, there were a number of others who accounted well for themselves. Tony Blair, remembered by football fans as one of the OQAA's outstanding corner line-backers, walked off with second class honors in Philosophy. As far as we know, Tony will be returning to McGill next year to do a Masters in Philosophy.

Steve Longstaff, a forgotten man in pre-season football plans, also copped second class honors. His fields were Sociology and Political Science. This summer, Longstaff is working in the Sociology department with Dr. Elkin. He will be returning next fall to do a Masters in that subject.

Longstaff started off the 1961 football season shadowed by the reputations of some of the new men breaking into the Redmen ranks. He was used rather sparingly and decided to leave the team early in October. When Blair got hurt, Longstaff was rushed back into action. His presence was more than felt by the opposition, as he turned in consistently fine performances as a corner linebacker. In post season balloting, he was named by his teammates, the most improved player on the Redmen Football squad and was awarded the Lois Obeck Trophy in recognition of that honor.

We have made our point. There seems but one thing left to say. On behalf of Daily Sports, we would like to extend to each of you our sincerest wishes for a peaceful healthy and successful tomorrow.

## SEC Appoints Galloway

The Students' Executive Council announced last week the appointment of Myron Galloway to the post of permanent Secretary-Treasurer of the Students' Society. He replaces Wilfred T. Hastings.

Myron Galloway is more than a capable administrator. He is also the author of several plays and a novel, "Frame of Reference", to be published this fall.

Chosen by the Students' Executive Council from a number of highly qualified applicants to replace the much admired Wilfred T. Hastings, Galloway was born in Halifax in 1920. Coming to Mont-

real in 1943, he has worked here in a variety of executive positions.

Best known for his writing, acting and directing, Galloway has appeared in and directed many MRT plays. He also founded the Script Theatre in 1955 and directed several plays for it.

Hastings announced his resignation from the position of Secretary-Treasurer of the Students'

Society last March. He gave personal reasons for his decision. Both students and university authorities

MYRON GALLOWAY

were shocked by the announcement and Hastings was lauded for his skillful handling of a very difficult job.

Lately, he has been helping Gal-

WILFRED T. HASTINGS

loway become familiar with the job. But when he leaves for England this Friday, Galloway will be on his own.

## Former Arts Building Janitor Commemorated In Scholarship

Shakespeare Harry, otherwise known as Harry Barker, an Arts Building assistant janitor for the 30 years preceding his death in 1945, will be commemorated at McGill.

The Harry Barker Memorial Prize in English, to be given to the student who obtains the highest marks in first-year English literature and composition, has been established by the will of his sister, the late Miss Dina Lee. It represents her life savings.

Officially a janitor, sometimes reserved to as a "Knight of the Broom", Harry gained his nickname by his knowledge of and ability to quote Shakespeare's works. But he was also a poet in his own right, and several times contributed to the Daily literary columns.

### LATENT PROFESSOR?

A strong believer in education, Harry might have become a professor of English literature had he enjoyed a sound education. One of his most-quoted poems is "Hitch Your Wagon to Old McGill":  
*Hitch your wagon to a star,  
A great philosopher once said,*

*But stars are millions of miles away,  
And the old philosopher is dead.  
As I desire an education,  
I think I have a plan —  
Hitch your wagon to Old McGill,  
And train to be a man.*

### OTHER WRITINGS

He wrote "Lines on the Visit of Bliss Carman", and "Adieu to a Professor of Classics", four verses entitled "Thoughts During a Ramble", and a few lines beginning: "Oh for a shower of dollars! This is a poor man's dream". The students thought so highly of his work that they sponsored a small volume of his verses, Simple Rhymes for Simple Folk.

His boss for many long years was the late "Bill" Gentleman. The two set up a tradition of janitorship which may never again be equalled in the history of "Old McGill".

## McGill, Queen's Benefit From Graduate's Will

McGill University and Queen's University have been named beneficiaries of the will of the late Richard T. Mohan of Toronto, former Chairman of the Board of General Foods Limited. Mr. Mohan, who died September 28, 1961, held degrees from both universities.

In a joint announcement, Dr. F. C. James, Principal of McGill, and Dr. J. A. Corry, Principal of Queen's paid tribute to the generosity and interest in higher education shown by Mr. Mohan in making bequests likely to bring each university about \$300,000.

The Principals of both universities emphasized the importance of such benefactions to universities at a time of unprecedented requirements for funds to meet current operating and capital costs.

In speaking of their appreciation of Mr. Mohan's generous interest in the two universities of which he was a graduate, Dr. James and Dr. Corry stressed that such continuing interest of graduates helps to assure to succeeding generations opportunities for university study which such donors obviously valued throughout their own lives.

Mr. Mohan's will stipulates that after providing for specific legacies to members of his family and to Mrs. Mohan, the balance of the estate is to be paid in equal shares to McGill and Queen's on the final dissolution of the estate. Mr. Mohan directed that the gifts "shall be used by the said universities as their respective Board of Governors shall decide."

Mr. Mohan was well known in business circles through his long association with General Foods Limited. He was graduated from McGill with the degree of B.Sc. in 1908. After demonstrating for a time in the Chemistry Depart-

ment at Queen's, he received the degree of M.Sc. from Queen's in 1911.

In addition to sharing equally in the residue of the estate, both McGill and Queen's received a

specific bequest of \$25,000 payable after Mrs. Mohan's death, to establish scholarships in Chemistry to the value of \$1,000 a year. The scholarships are to be known as the R. T. Mohan Scholarships.

## Principal Announces Faculty Appointments

Dr. Cyril James announced on Monday sixteen new academic and administrative appointments and promotions.

The promotions include: J. Brian Bird, from assistant professor to professor of geography.

Dr. Hassan Azima, from assistant professor to associate professor of psychiatry.

Dr. Jacob Fried, from assistant professor to associate professor of sociology and anthropology.

Dr. Alan Mann, from lecturer to assistant professor of psychiatry.

Dr. Manuel Straker, from lecturer to assistant professor of psychiatry.

New appointments are: Alan Karabus, assistant visiting professor at Tulane University, New Orleans, to assistant professor of law.

Z. A. Melzak, assistant professor of mathematics.

V. Seshrati, assistant professor at the University of Oklahoma, to visiting assistant professor of mathematics.

Jin-ee Oqi, lecturer at the

University of Malaya, to visiting professor of geography.

Rand Carter, Fulbright scholar at Princeton, to assistant professor of fine arts.

E. J. LeRoux, senior entomologist at the research branch in the Canadian Department of Agriculture, to associate professor of entomology and plant pathology.

Alan Ridge, head of records and registry services of Britain's National Coal Board, to university archivist.

Administrative appointments include: Dr. W. Stanford Reid, director of men's residences at McGill; Dr. G. E. Sleigh, warden of Molson Hall; Peet Silvester, warden of McConnell Hall.

Dr. John Stanley, director of the Stewart Biology Building, and Dr. Joyce Hemlow, acting head of the English department during the absence of Dr. R. S. Walker, who is on leave.
